

Congresswoman
VERONICA ESCOBAR
Texas' 16th Congressional District

March 10, 2021

H.R. 1319, The American Rescue Plan Act of 2021
An Urgently Needed Package to Address the Coronavirus Health & Economic Crisis

Congresswoman Veronica Escobar (TX-16) Voted to Deliver President Biden's American Rescue Plan to Crush the Virus and Generate an Inclusive Recovery for El Paso and Communities Across the Country with:

- 1. Shots in arms,*
- 2. Money in pockets,*
- 3. Children in schools, and*
- 4. People in jobs.*

SHOTS IN ARMS

- The *American Rescue Plan Act* meets and exceeds President Biden's request to invest \$20 billion in a coordinated, nationwide vaccine program to:
- Make sure we have enough vaccines for all Americans through research, development, manufacturing, production, and purchase.
- Get those vaccines out to all Americans quickly and equitably through community vaccination centers, mobile vaccination units and more.
- Improve communication to strengthen confidence in the vaccine and make sure all Americans know when, where and how they can get one.
- It will also scale up testing and tracing, address shortages of personal protective equipment and other critical supplies, invest in high-quality treatments, and address health care disparities.

MONEY IN POCKETS

- The *American Rescue Plan Act* provides rescue checks of up to \$1,400 for individuals. Combined with the \$600 down payments enacted in December, these additional checks fulfill our promise to put \$2,000 in Americans' pockets.
- It will extend pandemic-related unemployment benefits, with the first \$10,200 of unemployment benefits received in 2020 tax free, so 18 million American workers can pay their bills.

- It will help keep people in their homes and apartments with housing assistance; put food on tables with nutrition assistance for 40 million Americans; support 27 million children with an expanded Child Tax Credit and support more than 17 million workers through the Earned Income Tax Credit; and lower health care costs to help families stay covered in the pandemic.

CHILDREN IN SCHOOLS

- The *American Rescue Plan* makes nearly [\\$130 billion immediately available to State Education Departments](#) so they can: 1. Get schools open safely 2. Keep schools open safely 3. Make up for lost learning time. Superintendents, schools boards, the PTA, and others [told Congress they need the American Rescue Act](#) and we are listening to them.
- The American Rescue Plan also provides resources for higher education, Head Start and childcare facilities.

PEOPLE IN JOBS

- The *American Rescue Plan Act* will provide crucial support to help the hardest-hit small businesses keep their doors open – especially those owned by entrepreneurs from racial and ethnic backgrounds that have experienced systemic discrimination – with: \$15 billion in Economic Injury Disaster Loans (EIDL) grants, expanded Paycheck Protection Program (PPP) eligibility and an additional \$7.25 billion in funding, \$28.6 billion to revitalize restaurants, food, and beverage establishments, and additional resources to help small and disadvantaged businesses navigate and access COVID relief programs.
- The plan also provides crucial resources to protect the jobs of first responders, frontline public health workers, teachers, transit workers and other essential workers, who all Americans depend on. State and local governments have been forced to lay off 1.4 million public servants due to the pandemic.
- With the American Rescue Plan, economists estimate that we can bring the economy back to near full employment in a little over 12 months. Without the American Rescue Plan, CBO estimates it will take at least three years before employment returns to pre-pandemic levels.
